My Goals

I quickly develop in the field of Web Dev. to become a true professional. At the moment I have a strong desire and knowledge to find a job that will bring me the pleasure and to other benefit.

Education

The State University of Telecommunications

At that moment I am a student at the State University of Telecommunications, faculty of Information Technology, direction is Software Engineering, third year.

Experience

Creation of a business card website

Sites were created for own use, clicking on the links above you can see them, and there are also a part of the my work.

Junior SEO Link-builder

The work consisted in finding sites for placing links, checking sites for compliance with requirements and posting itself with a description.
