I'M

RUSLAN FEDOTOV

**WEB DEVELOPER, WEB DESIGNER, PROJECT MANAGER |
RUSLANFEDOTOV.HO.UA |**

MY GOAL

At the moment, I'm rapidly developing in the direction of web development, in order to become a true professional in the future. Career objective is web developer or Project Manager in small team.

SKILLS

Excellent PC, MS Office. The level of ownership of HTML5 & CSS3 is above average. I'm currently studying JavaScript and frameworks such as jQuery, Angularjs etc. I have a little experience in WordPress. Working in PhotoShop is not difficult for me. I can work as Project Manager, because I have experience. Intermediate level of English.

EXPIRIENCE

CREATION OF A BUSINESS CARD WEBSITE • OWN WEBSITE •
I decided to create my own business card website because I had enough of time. Website: ruslanfedotov.ho.ua (Website is already done for 70%)

LINK BUILDER •
Worked remotely at the post Link Builder. The reason for leave: there was no professional growth.

PROJECT MANAGMENT • FREELANCE •
I have experience in running the project as a Project Manager with a small team. We had been developing a service which can help the people to find more cheap tickets for travel in Ukraine. The project was at the development stage of the functional part. The subsequent fate is unknown for me, because the financing ceased and work stopped.

DESIGN FOR THE UNIVERSITY'S WEBSITE • STATE UNIVERSITY OF TELECOMMUNICATIONS •
Design of the website you can see on my website.

VIDEO EDITING • FREELANCE •
Video editing was like a hobby, that brought me money.

GROUP ADMINISTRATOR IN A SOCIAL NETWORK • VK.COM •
I had been working there for 1 year. My job was just adding new content.

COMPUTER-TYPED OPERATOR • UKRAINIAN ARCHIVAL COMPANY • 02.04.2015 – 25.08.2015
The first two weeks I had been rewriting documents (from a scanned source), then I made documentations of the work of employees. The reason for leaving job is that I needed more time for education and there was no development in the company for me.
